

Bone Ship Model of the French ship of the line JUPITER in Hamburg

In the meeting room of a big company in Hamburg, there is the Bone Ship Model of the French ship of the line JUPITER. JUPITER was a *Téméraire* class 74-gun ship of the line of the French Navy.

It would appear that the Bone Ship Model has undergone major restoration, especially the rigging looks quite new.

The armament¹ of the ship was: Lower gundeck 28 x 36-pounder long guns, upper gundeck 30 x 18-pounder long guns, on the Forecastle and Quarter deck 16 x 8-pounder long guns, 4 x 36-pounder carronades.

Gunports in the counter (with guns)

It is quite unusual that POW bone ship models show armament in the counter. Normally, the port holes are empty, or the pull cords for the gun retraction mechanism are mounted.
